

The **TGC-18** reversible tailgate conveyor discharges material to the right- or left-hand side for repairing edge ruts, filling trenches, and restoring road shoulders. Quick disconnect pins permit removal and attachment without the use of tools.

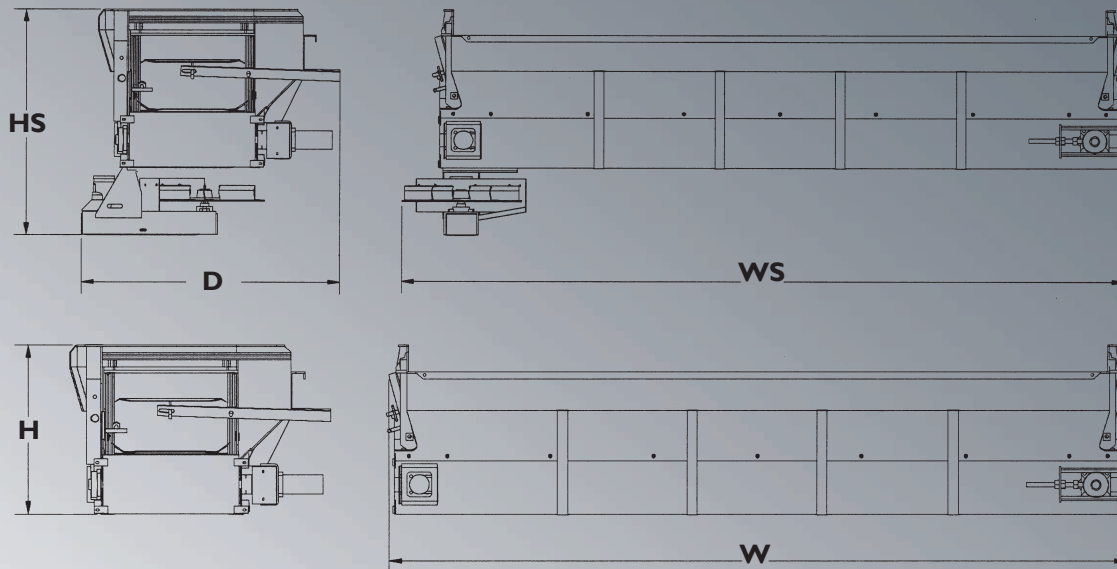

TGC-18 Standard Features:

- Heavy-duty 7-gauge trough, bottom and endgates. Both endgates adjust for controlled material flow and swing open for high-speed dumping.
- 18" (46cm) wide belt-over-chain conveyor riveted to 1/4" x 1" (6mm x 25mm) cross bars for either right- or left-hand discharge. The belt is heat and oil resistant with a temperature range of -40° F to 225° F (-40°C to 107°C); rated -10° F to 350° F (-23°C to 176°C) for coarse material.
- Quick disconnect mounting kit enables fast mounting and removal of spreader without the use of tools.

Optional Equipment:

- Spinner assembly for the spreading of deicing materials. Includes a hydraulic driven 18" (46cm) diameter spinner with six hardened fins, adjustable spinner baffle, and spinner safety guard.
- 2' (61cm) discharge chute for edge rut work.
- Non-Hi-Temp belt-over-chain in lieu of Hi-Temp conveyor (for salt & sand use).

TGC-18 Specifications
